GLASS COMPOSITION WHICH IS  
INTENDED FOR THE PRODUCTION OF  
GLAZING

INTERVIEW SUMMARY RECORD

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

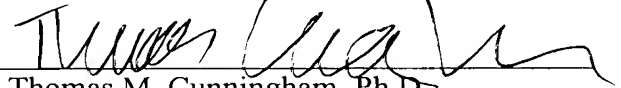

SIR:

On September 24, 2010 the Applicants representative discussed with Examiner Bolden amendments that would remove non-elected subject matter from the claims that would place this application in condition for allowance. The Examiner indicated that the non-elected subject matter would not be rejoined because it described a materially different glass composition due to differences in Ni and Co content.

Authorization was made for the Examiner's amendment of claim 1 and cancellation of claims 8 and 16 without prejudice to the appearance of the non-elected subject matter in a Divisional Application.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, L.L.P.
